

WHAT ARE POINTS?

Points add up every time you order through the app or complete a challenge. Every point counts, bringing you closer to the next tier and reward.

CAN I USE MY POINTS?

Points can't be used, only earned. They are an indicator of where you are on your tier journey. Earning points leads to more rewards and gifts. Besides reaching new tier levels, you will unlock a free item at every 10,000 points.

Points accumulate with each order placed through the app or challenge completed. Every point matters, getting you closer to reaching the next tier and unlocking rewards.

Points will be converted into cash upon completing a tier. They serve as a measure of your progress on your tier journey. Accumulating points unlocks additional cash rewards and gifts. Additionally, for every 8,000 points earned, you'll receive a free item as you advance to new tier levels."

"Check out the list below for a breakdown of the point values for each product!"
